

Mayor, Mike Delisle, Elected Indian act band council of Kahnawake, CND Gov. & IOC influence peddling corruption to the children

December 7, 2009

Mayor, Mike Delisle and the Elected Indian act band council of Kahnawake influence peddling corruption to the children of Kahnawake, along with their collaborator, the International Olympic Organizing Committee (I.O.C.) and the Canadian Government!

In the Canadian Governments bid to divide and conquer the Native People of Turtle Island, they have conspired along with the I.O.C. and the Kahnawake band council to poison our children's minds by utilizing Alwyn Morris of Kahnawake, in a ceremony of "hype" at our local elementary school, celebrating the Olympic torch undermining Native people across Turtle Island.

Alwyn Morris may have been an ex Olympian, however, in working under ex minister, Ron Irwin, of Indian and northern affairs Canada, on the self extermination policy of self government, he was able to snake his way into the bureaucracy of the Kahnawake band council, where he worked along with and under the tutorship of the ex mayor, Joe Norton.

Together, with the other corrupt band councillors, worked to undermine the political process of the people of Kahnawake, where the people had said "no", to a casino functioning here in Kahnawake. With total disregard for the people and the political process which they within the band council had first initiated and illegally conspired with questionable investors in New York to establish the online casinos of Mohawk Internet Technologies.

Alwyn Morris was then able to illegally influence peddle his way into establishing his own illegal on line casinos through his own, specially created, Mohawk Internet Technologies subsidiary of "Bo Dog gaming". Such endeavours are illegal by any standard, but is exactly what the Canadian Government needed to establish upon the Mohawks of Kahnawake to influence in corruption so they can then use it against us as leverage.

Thus, through the hype and ceremony they intend to subject our children to at our local elementary school in celebration of the Olympic torch and the negative impact it is having on Native solidarity, Alwyn Morris is nothing more than a corrupt puppet used by Canada and the I.O.C.. The band council is welcoming this as the opportunists they are, in an attempt to legitimize the said illegal activity.

The I.O.C. and the Canadian Government are using these corrupt players to carryout the filling of our children's minds with confusion so that they more easily accept and become corrupt just like them.

All these players are corrupt and are guilty of attempting to fill the minds of the children with poison. This exemplifies how Canada is utilizing the I.O.C. to influence peddle political mayhem to the Native people here on Turtle Island.

In Peace and Friendship.

Secretary, Stuart Myiow
